

Lay Claim To Big Buffalo Property

Descendants of Pioneer Resident Bring Suit for Land Bequeathed to Catholic Church.

Paris, June 29.—Louis and Henri Lecouloux de Caumont and their nephew, Baron de Blai, descendants of Louis Lecouloux de Caumont, a pioneer resident of Buffalo, N. Y., today signed powers of attorney authorizing Donald Harper of Paris and Edmund C. Randall of Buffalo to institute suit in the supreme court of New York for the recovery of certain property in the heart of Buffalo, valued at \$1,000,000. This property was bequeathed between 1827 and 1828 by the grandfather of the claimants to the authorities of the Catholic church for ecclesiastical and charitable purposes. The suit is brought on the ground that the conditions imposed by the testator have not been fulfilled. The property includes the Church of St. Louis at Main and Edward streets, given for

a church and cemetery; a block of tenements at Delaware avenue and Edward street, given for a priest's residence, and reversionary interests in other property.

When it was desired, in 1833, to rebuild the Church of St. Louis, the Catholic authorities found it impossible to place a mortgage on the property, as no deed existed. Mr. Corrihan, who was then archbishop of New York, thereupon gave Bishop Ryan of Buffalo a quit-claim deed. Under the prescriptive statute, this deed to the property will ripen into an incontestable deed, the end of next month. The present suit, therefore, is for the purpose of testing the legality of the claim of the heirs. The plaintiffs are men of wealth, and are interested in horse-breeding.

Four Good Habits.

There are four good habits—punctuality, accuracy, steadiness, and dispatch. Without the first of these time is wasted; without the second mistakes the most hurtful to your own credit and interest and that of others may be committed; without the third nothing can be well done, and without the fourth opportunities of great advantage are lost which it is impossible to recall.

Older Water.

Impure and bad smelling older water is often caused by the growth within it of microscopic plants called algae. Sulphate of copper will quickly kill these germs, and any other germs. The common name is blue vitriol. Try it in stock tanks, also, which have green scum in them. A piece the size of a grain of wheat will be enough for a barrel of water.

Jap's Wonderful Nerve.

A Japanese laborer who was injured by an explosion of dynamite while clearing land on a ranch near Seattle, Wash., exhibited considerable nerve when it was found that the amputation of an arm was necessary. He refused to take an anesthetic and during the operation the Japanese coolly gazed into a looking glass and watched the amputation.

Joy and Comfort in Good Books.

The atmosphere of good books makes for a refinement that levels rank and social position. The woman who knows intimately the master minds of the world, who keeps up with current events, has within herself a well spring of content, and rarely is a source of discontent to her friends.

Poisons Dangerous to Make.

A good many poisons are dangerous to manufacture. Mercuric methide, for instance, brings madness to those who work too long at making it. A gas rises from it that is not immediately fatal, but which causes temporary insanity, which may, of course, become permanent.

Consul Harry A. Conant of Windsor writes that a branch Canadian factory is being erected at Leamington, near there, by a Pittsburgh pickle concern and will start operations during June.

HOME GARMENT MAKING.

The Bulletin's Pattern Service.

GIRL'S SAILOR DRESS.

Paris Pattern No. 2945 — All Seams Allowed.

A pretty frock which takes the place of the popular sailor blouse costume is here illustrated, developed in light blue chambray. The sailor collar, of the material, is trimmed with wide and narrow white cotton braid, similar braid trimming the long, close-fitting sleeves. The plaited skirt is attached to the blouse, under a belt of the material, and the entire dress closes through the center front with large pearl buttons.

The pattern is in five sizes—6 to 14 years. For a girl of 10 years the dress requires 6 1/2 yards of material 24 inches wide, 5 1/2 yards 27 inches wide, 4 yards 28 inches wide or 3 1/2 yards 42 inches wide; 2 yards of wide braid and 1 1/2 yards of narrow braid.

Price of pattern, 10 cents. Order through The Bulletin Company, Pattern Dept., Norwich, Conn.

Every newspaper office has at least one man who loves figures, and to whom a table of statistics on the editorial page is a joy forever. To all such the death of Joseph Nimmo of Washington, the well known statistician and economist, at the age of 75, will carry a sense of great loss.

FUTURE SPHERE MAPPED OUT

Budding Genius Seemed Set Aside to Some Day Adorn the Legal Profession.

"That boy," said the second hand book dealer, nodding toward a freckled faced lad gazing at a feather duster around promiscuously, "is a wonder in his way."

"Well, I don't care what he is in his way," responded a testy customer, who frequented the shop, "so long as he doesn't get in mine, which he does every time he can."

"I know, I know," sighed the dealer, "but what am I to do? He is my only stepson and he's got to have a job. Yesterday I gave him a copy of 'Dr. Syntax' to put where it belonged and did he do it? Oh, yes, he did it—mit. I found it to-day over there among those books marked 'Medical.'"

The testy customer grunted with a sort of satisfaction.

"But that is nothing to what he did a month ago," the dealer went on. "One day he came to me with a copy of 'The Reign of Law' and asked where he should put it. 'Don't you know where it ought to go?' said I, provoked that a boy of his size didn't know a novel by the feel of it. 'I wasn't sure,' said he, 'whether it ought to go under the head of 'Meteorological' or 'Legal.' Now, what do you think of that? He ought to know enough to go in out of the rain, oughtn't he?'"

The testy customer grunted again and chuckled.

"Let him alone, let him alone," he said. "He'll be a fine lawyer one of these days."

The prince regent of China wants a government newspaper to "find out the opinion of the public on the policy of the government from time to time."

A Glimmer of the Truth.

Asked to write a report of a lecture on "Phases of Human Life—Youth, Manhood and Old Age," a young English girl produced: "In youth we look forward to the wicked things we will do when we grow up—this is the state of innocence. In manhood we do the wicked things of which we thought in our youth—this is the prime of life. In old age we are sorry for the wicked things we did in manhood—this is the time of our dotage."

India Victims of Tigers.

The ferocity of the tiger can be seen from the fact that according to a recent writer he is made responsible for 37 per cent. of the human beings killed by the wild animals of Hindustan. The writer adds that once a tiger has tasted human flesh he is satisfied with nothing else, and that in southern India one of these man-eating tigers has devoured 200 human beings.

Guarding Against Earthquakes.

All great cities have stimulated the creative faculty of mankind, and earthquakes have, of course, earned a full share of attention. The most original notion in this connection was put forth by a genius who quite satisfied himself that if houses were provided with wheels or rollers they would move about backwards and forwards during an earthquake and escape disaster.

Hollanders Heavily Taxed.

All told, a Hollander pays about 12 per cent. of his yearly income for taxes. He is taxed for his business income, for the interest he collects, on his house rent, his furniture, on six fireplaces and all the stores in the house he rents or owns, on his horses, bicycle and servants. On an income of \$2,400 a year he pays \$298.

MADE THE EULOGY A FARCE.

Bishop Potter's Illustration of the Inadvisability of Relying Too Much on Notes.

The late Rev. Henry Codman Potter greatly objected to the use of notes. At one time he was addressing a number of young theologians on the importance of not being too closely confined to a manuscript. By way of illustration he told the following anecdote about a clergyman who was called upon to officiate at a funeral.

"When the minister arrived at the town where the deceased had lived he had just time to make a few inquiries about his traits and achievements, the results of which he noted on a memorandum. His eulogy at the service, as reported, was about as follows:

"Our dear brother, whom we mourn to-day, was a man of rare character and ability. He had a mental capacity of a—referring to his notes—'Daniel Webster, the tact of a—again consulting his memoranda—'Henry Clay, the pertinacity of a—another reference—'Ulysses S. Grant. We can only mourn him with profound and sorrowful regret now that he has gone to meet his—another reference to his notes—'God.'—Judge."

Every Town in County "Dry."

Little Yates has the distinction of being the only county in the state that is absolutely "dry." Every town in the county has voted no license. The village of Pean Yan, the county capital, will use "cold tea" as a regular beverage for the first time in 30 years. Yates is the smallest county in the state, and the tourist can cross it in either direction before he gets very thirsty without exceeding the speed limit.—Utica (N. Y.) Press.

The city death rate is generally greater in winter than in summer.

Mortgage on a Cat.

A mortgage on a cat is not often heard of. However, the other day there was filed in the recorder's office a chattel mortgage the consideration of which was \$20. The property on which the money was secured was described as a "cat-called John"—Columbus Dispatch.

Precautions Against Rats.

The owners of grain godowns and warehouses in Calcutta are compelled by municipal regulation to pave with concrete to prevent the ingress of rats, which, it is believed, will aid materially in the extermination of this active distributor of the plague germ.

No Price Limit.

If a young man develops a first-class business ability he needn't bother about a fortune. His professional talents will find employment at rates which will make the possession of a fortune superfluous.—Saturday Evening Post.

Revision.

"Now," said the distinguished representative, "we have arranged the tariff precisely as it should be and all you have to do is to say 'Amen.'"

"No," answered the distinguished senator, "not 'amen,' 'amend.'"

Large Stream of Meteors.

The August meteors, according to a leading astronomer, form a stream so broad that the earth, though it travels faster than 18 miles a second, takes seven weeks to cross it.

Bulkheads Quickly Closed.

On one of the new trans-Atlantic liners twenty-four bulkhead doors, each weighing half a ton, can be closed from the bridge in 30 seconds by hydraulic power.

'T WILL HELP YOU

Woman's Relief

Dr. Krugers Viburn-O-Gin Compound, the woman's remedy, has been known for years as "Woman's Relief," since it has positively proven its great value in the treatment of womanly diseases.

It will help you, if you are a sufferer from any of the ills peculiar to women, which can be reached by medicine.

It has helped thousands of other sick women, as grateful letters from them clearly describe. It contains no poisonous drugs.

For nervousness, irritability, headache, backache, pressing-down pains, and other symptoms of general female weakness, this compound has been found quick and safe.

"I think Viburn-O-Gin is the best remedy for weak women. It does me more good than any medicine I have ever taken. I cannot praise it strong enough. I think it is the best woman's medicine on earth."

You'll feel like writing a similar letter if you try it.

\$1.25 a bottle with directions.

Franco-German Drug Co., 106 West 129th Street, New York AND ALL DRUGGISTS.

Why Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: **First**—The indisputable evidence that it is harmless: **Second**—That it not only allays stomach pains and quiets the nerves, but assimilates the food: **Third**—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is

unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

The Kind You Have Always Bought and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

GENUINE
CASTORIA
Bears the Signature of

Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Leister, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."

Dr. W. T. Seelye, of Amity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. J. McCrane, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Howard James, of New York City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

Chas. H. Fletcher
